Power consumption: 5,0 watts
Dimensions: 415 x 90 x 300mm (WxHxD)
Weight: 2,7 kg

Minimalistic Look. Maximum Sound.

The Elemental appears to be pure simplicity itself, while maintaining high quality audio standards. The design is unique and functional.

The central gravity mass point, made from an artificial stone, placed directly underneath the platter bearing is capable to fully absorb unwanted rumble and motor vibration.

The Elemental as a true plug & play turntable. We updated the cartridge to our premium Pick it 25A. Its coil windings are made of pure silver to achieve more transparency and dynamic. The tracking and anti skating force is pre-adjusted by our experienced technicians. Fitted with the Acryl it E main platter and the aluminium record puck the turntable doesn't only look sublime it will also provide you a real audiophile listening experience.

The included Ground it E is a stable and height-adjustable platform, that reduces negative effects of potential surface vibrations significantly.

The turntable is made in Europe by technicians, engineers and designers with decades of experience.

Expert craftsmanship.
Sustainable products with a long lifetime.
Audiophile audio performance.

USB Recording

Record your favourite records with a quality up to 16 bit & 48 kHz

Acrylic Platter

Liquid sound that leaves no space for platter resonances

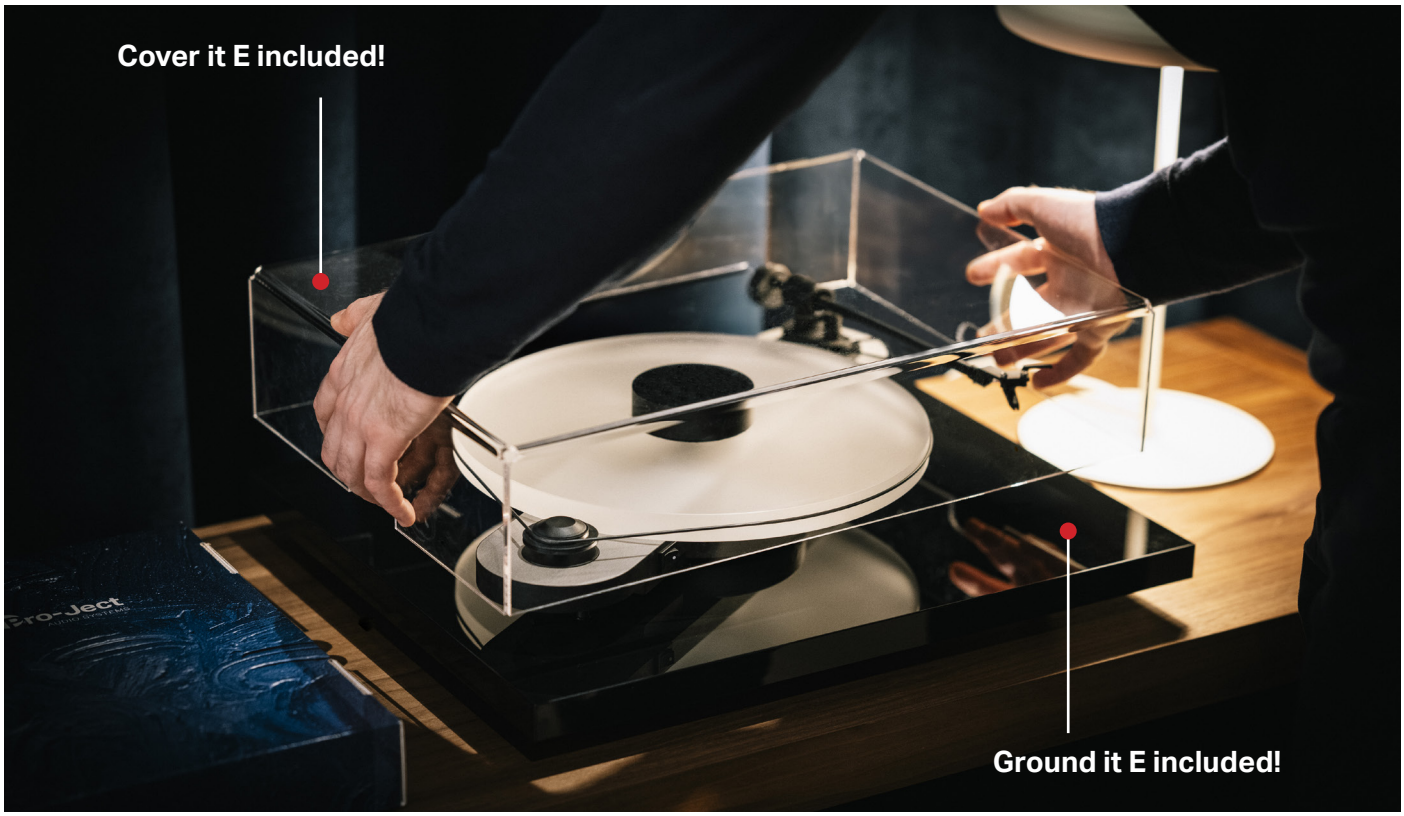

Pick it 25A

Pure silver coils deliver a higher level of details and transparency

8,6" Tonearm

Ultra low mass aluminium tonearm paired with a high quality bearing ensure correct tracking

Cover it E included!
Ground it E included!

Elemental 007
FINAL EDITION
Jakob Dimberger

THE FINAL EDITION

This FINAL EDITION series aims to pay homage to our past and allow you to own a piece of Pro-Ject history by bringing back some of the turntables we have made over the last 32 years.

We were able to build the Elemental Final Edition like its original predecessor and upgraded some parts to bring the technology to 2025 standards.

When you buy a FINAL EDITION turntable, you will receive a certificate which attests that your Pro-Ject turntable is one of the FINAL EDITION series.

We have meticulously crafted this turntable with exceptional accuracy and attention to detail, adhering to Pro-Ject's well-established high-quality standards.

We are proud to offer you this unique and exclusive piece of Pro-Ject history and hope you will enjoy it for many years to come.
